

CHOICE OR CHALLENGE

A Renewed Mind *Creates* A Renewed Lifestyle

*Invest in
yourself and
your lifestyle
will follow.*

BY REGINA NUNNALLY, ESQUIRE

COVID-19 has forced everyone to re-evaluate their current situation. For instance, working from home is the hot commodity now. Due to the fear of contracting the virus, home based businesses are on the rise. When such things were frowned upon or blown off pre-COVID, the pandemic has renewed minds.

Change can happen two ways: by choice or by challenge. Do you want to be forced to change? Believe it or not, your lifestyle reflects your mindset. That is correct. The way you think controls your choices and actions toward a given situation.

To prove what is good, you need to upgrade your thinking of what is good. If you see this COVID situation as hopeless, then to you, it is hopeless. If you see it as a challenge to clear your vision in 2020, then the vision will be cleared, and you will prosper. Where the heart goes, the feet follow.

The psychology of our minds is deeper than we think. I decided to create 'See The World Thru My Eyes, LLC' to help someone like you to see the world through renewed eyes. Why? Because a renewed mind creates a renewed lifestyle. Travel is a lifestyle but if you think it is too expensive and time consuming, you will never do it. However, if it is explained, you hear testimony and see the evidence, you see travel through renewed eyes.

We want to play by our own rules and being comfortable is part of the game. If someone said you are your greatest asset, would that motivate you to change? The flesh is allergic to correction and doubt tends to be our scapegoat. My goal is to breakdown mindsets before building a foundation of abundance. Abundance is flowing around you yet you can't see it. Let your mind reset and refresh itself. Change your inner circle. Surround yourself with self-starters and happy people. Invest in yourself and your lifestyle will follow.
